***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: claims are allowable since the prior art of record does not set forth a central controller which is connected to both temperature sensing devices and includes a program for determining the malfunction of one of the sensing devices. As per claim 6 the prior art does not teach active connection of both sensing devices to the controller, nor does it teach use of one of the sensors if the other fails. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark H Paschall whose telephone number is 703 308-1642. The examiner can normally be reached on 7am - 3pm.
